PRINCIPAL

*M*AY I have your attention, please!

This message is primarily to the Class of 1951 but should apply to the entire student body.

I wish to extend best wishes to the graduates in their future activities. You have shown a certain determination in reaching the present rung of the ladder of life, but you must learn one important lesson which will give you the great satisfaction of a job well done. Any attempt you make to accomplish a goal is worth your whole-hearted effort and cooperation with others to reach that goal. Remember that what you get out of a project is in proportion to the work you put into it. Always develop the desire to be at the top; never be satisfied with a task half completed.

My first year of association with the students of Van Etten has been very pleasant. I shall always remember the friendships cultivated during the past year. Best of luck to all of you.

That is all!

Herman W. Mayer
